

Dear Sir or Mam,

I support freedom of Christian radio. I do not listen to Rock& Roll or country anymore as my values have changed after becoming a true Born Again Christian. I live for being able to listen to KLOVE and many other Christian stations in the midwest.

The fact that people are trying to do away with religious freedoms is very upsetting to me. Also if stations would have to go by guidelines or report quarterly, it tells the people that the government is interfering with our religion. Also, if i turn my radio dial, I hear many things that disgust me as well. I do not complain publicly, i simply turn the dial some more. It would be different if people were being tied up and forced to listen.

How come you have people talking about disgusting things on the airways ex:Howard Stern, but yet want to muffle out peaceful, completely moral, loving Christian Radio? Very insulting indeed.

Thanks for your time.
